

Club Sandwich

You make the best sandwiches in town.
The locals know this, and they are *hungry*.

Objective: Make as many sandwiches as you can before the kitchen is overrun.

Start by shuffling a standard deck of 52 cards, remove the jokers. They're too silly.

Place the shuffled deck in front of you and pull the top card and start making sandwiches.

How to make a sandwich:

Each sandwich is comprised of 4 cards; 1 heart, 1 diamond, 1 club, 1 spade.

There are only 4 places to build a sandwich and only 1 of card of each suit can be present in a sandwich building zone at any time. If the sandwich contains a KING card though, two of each suit can be present. It's a King Club.

As sandwiches are built, set them off to the side to count how many were made before the kitchen was overrun.

If at any time you cannot place a card in a sandwich, the game ends.

Need:

1 deck of cards

1 place to play

Patience.
